WizHead
— The Head is a Puzzle! —

CATALOG 2022 FALL

WHO WE ARE

James Joyce once said, "mistakes are the portals of discovery" and we couldn't agree more. In 2014, what was originally meant to be an attention-grabbing mascot for one of our start-up companies, resulted in an unrecognizable chaos of cardboard. This "mistake" proved to be an unlikely inspiration for the Wizhead models we create today.

As engineers, we are fascinated by the convergence of science and art, and our papercraft models are the dynamic result of this intersection. At the core of Wizhead is our desire to introduce people, of all ages, to objects that capture the essence of the many characters who have influenced this story we call LIFE. We hope you enjoy them as much as we do.

KEY FEATURES

SUSTAINABLE MATERIAL

We print all of our model components on Invercote paper, which is sustainably manufactured by a Swedish company with a GRI A+ rating.

HIGH QUALITY IMAGE REPRODUCTION

The fully-coated surface of Invercote paper allows the faithful reproduction of sophisticated, detailed images and vibrant colors.

EGYPTIAN SERIES

The influence of Ancient Egyptian culture on our modern society is vast: the invention of mathematical fractions, the idea of a phonetic alphabet, the discovery of papyrus (and the reed pen) and advanced medical procedures. There isn't much in our present-day lives that didn't originate from this complex civilization.

CULTURE SERIES

It has been said that leadership, and sometimes rebellion, are acts motivated by concern for the common good rather than by self-interest and, in fact, are fueled by the hope for something better. Though they have sometimes been polarizing figures, over the course of history, both leaders and rebels have affected necessary social change and profound shifts in ideas. Collectively, they have shaped and formed our diverse cultures not only by the history of their lives, but by the mythical and iconic stature they have attained through time.

MUSIC SERIES

We're math & science geeks and even though we know (and think it's cool) that blood flow in the brain rises and falls along with swells of music in areas that are associated with reward and emotion, the simple reality is that we just love listening to music. When we need motivation, something to make us happy or want to remember fond memories – music is the answer.

MONSTER SERIES

The Gothic imagination of writers such as Mary Shelley, Edgar Allan Poe and Bram Stoker is so vividly visual that it remains a perennial subject matter in the 21st Century media. Perhaps this is because of its ability to reflect deeper fears of the apocalyptic, the macabre, bad science and corrupt power - all of which are contemporary themes.
