## CULTURE SERIES

It has been said that leadership, and sometimes rebellion, are acts motivated by concern for the common good rather than by self-interest and, in fact, are fueled by the hope for something better. Though they have sometimes been polarizing figures, over the course of history, both leaders and rebels have affected necessary social change and profound shifts in ideas. Collectively, they have shaped and formed our diverse cultures not only by the history of their lives, but by the mythical and iconic stature they have attained through time.

## EGYPTIAN SERIES

The influence of Ancient Egyptian culture on our modern society is vast: the invention of mathematical fractions, the idea of a phonetic alphabet, the discovery of papyrus (and the reed pen) and advanced medical procedures. There isn't much in our present-day lives that didn't originate from this complex civilization.

## MUSIC SERIES

We're math & science geeks and even though we know (and think it's cool) that blood flow in the brain rises and falls along with swells of music in areas that are associated with reward and emotion, the simple reality is that we just love listening to music. When we need motivation, something to make us happy or want to remember fond memories – music is the answer.

## LITERATURE SERIES

Literature, in all its forms, engages us and collectively transports us to new worlds, be they in the past, present or the future. We, as readers, become intimately acquainted with characters that we otherwise may not have known. Authors, within each of their own style, give us a fresh perspective, a sharp wit and a multitude of questions that allow us to think about the world around us and all the amazing stories within it.

## MONSTER SERIES

The Gothic imagination of writers such as Mary Shelley, Edgar Allan Poe and Bram Stoker is so vividly visual that it remains a perennial subject matter in the 21st Century media. Perhaps this is because of its ability to reflect deeper fears of the apocalyptic, the macabre, bad science and corrupt power— all of which are contemporary themes.
